

To The Farmers

OF

Medina County

Big crops do not mean big profits. Production is only a part of our problems. Distribution and the selling of our products are at least half the battle.

Last Fall when the price of hogs was cut in the middle, in two months, we farmers realized as never before our utter helplessness.

There are many vital problems to be solved. One or two farmers can do but little. One or two thousand farmers can do anything they undertake in their own community.

We Must Organize

Between February 20th and 28th our county will put on a membership campaign, assisted by State Federation solicitors. Every farmer in the county will be seen and asked to join the bigger Farm Bureau and the State Federation.
